

RETROSPECTION

What went well during the last sprint?

- Team contribution
- Followed Agile methodology
- Completed in stipulated time
- All members knew what they had to do and did it

What didn't go well?

- Running out of time
- Unclear next step

What did we learn?

- To set the goal and have team meeting to help our team focus on the task at hand
- Communicate well with team members and divide the task according.
- Gathering feedback from the team helps us to ensure the sprint process works for every team member and work style and needs

What should we do differently next time?

- Make a roadmap and plan accordingly
- Take suggestions from the team and plan the next work in advance
- Take both positive and negative feedback from other team members and work on it
